

Acclivity Overview

Acclivity Health Solutions is a trusted healthcare technology company with a mission to improve access to appropriate health care for patients with serious illnesses. Its platform is designed to securely connect all members of a care community — physician practices, ACOs, hospice and palliative care organizations, payers, and caregivers — and facilitate effective care collaboration that results in the right care in the right place at the right time. By delivering appropriate and timely services to their shared patient population, multidisciplinary care teams are able to meet value-based care program requirements.

Today, Acclivity serves healthcare organizations in all 50 states, enabling care management for over 4 million patients. It has helped to prepare hospice and primary care organizations in 24 of 26 regions succeed in Primary Care First and supports nearly 20 DCE organizations.
