

HealthPivots

HealthPivots Overview

HealthPivots is a market intelligence company that develops powerful, cloud-based tools powered by 100% of Medicare FFS claims data.

Our flagship product, HealthPivots DataLab, is used by over two dozen NPHI members to support their growth and help them transition to value-based care.

Ask us for a **complementary VBID analysis** which highlights how important each Medicare Advantage plan is to your hospice and how important you are to them. This valuable report will provide you with the insights you need to negotiate contracts with confidence.
