Offering heartfelt care to our community since 1979!

HOSPICE OF HUMBOLDT

Hospice Care ♥ Palliative Care ♥ Grief Support

In the last three years Hospice of Humboldt has ...

- Provided compassionate care to over 2,500 patients ranging in age from infant to over 100 years old.
- Hospice patients have spent 4,000 days in our Hospice House for respite for their caregivers, pain management, or because they chose to live out their life journey in the peaceful setting of the only specialized end of life care facility on the northern coast of California.
- Grief Support Services has made 2,350 calls, 2,400 visits, and 2,800 people have attended grief support groups. We are ensuring children, teens, and anyone in our community who has suffered the loss of a loved one has a place to turn for an extra layer of support.
- Provided over 63,000 patient visits and supported countless family members with care and comfort in times of tremendous need.
- Provided volunteers to sit vigil for an average of 16 hours a day for many patients to meet our mission that no one dies alone or afraid.
- Supported 75 local volunteers who have given nearly 10,000 hours of their time comforting patients and their families.
- The Hospice Shop thrift store in Arcata, California kept thousands of pounds of useful items out of the waste stream by finding them new homes, while generating revenue that benefits our programs and community services.
