

Wise Hospice Options Overview

Wise Hospice Options is a Pharmacy Benefit Management (PBM) provider that offers a suite of tools to help hospices streamline their operations and reduce pharmacy costs. Our services include integrated E-Prescribing, which enables hospices to manage their medication orders electronically, interactive reporting to actively track usage and costs, Durable Medical Equipment (DME) management, Electronic Health Record (EHR) integrations, and pharmacy management tools. By leveraging these services, hospices can simplify their workflows, optimize nursing time, and improve patient care. Wise's mission is to support hospices by providing cost-effective, efficient, and reliable solutions that help hospices achieve their financial and operational goals.
