OSHN Overview

In 1995, The Ohio State University Wexner Medical Center founded the Ohio State Health Network (OSHN) to create a partnership of rural hospitals throughout Ohio. The relationship has enabled our members to collaborate and grow with the benefit of reducing operating costs and increasing the quality of care we all provide to our patients. More recently, OSHN has added members from across the nation and the healthcare continuum.

NPHI members can request a no cost, contract savings analysis from OSHN by contacting Sarah Sharp (ssharp@hospiceinnovations.org), Tom Blincoe or Jason Galloway.
